The Money Will be Diabursed by the Secretary of the Interior. In response to the requisition of the Bec-retary of the Interior for funds to pay those property owners in squares 729, 730, and jury, Acting Secretary Fairchild, of the Treasury, yesterday transmitted his reply. In it he states that before any payment

Treasury, yesterday transmitted his reply. In it he states that before any payments can be authorized by the accounting officer it will be necessary to furnish satisfactory evidence that the release and conveyance of the property to the government is in accordance with law, and also the written opinion of the Attorney General as to the validity of the title in each instance.

The letter also suggests that all the payments be made by the Secretary of the Interior through the distursing officer of the Interior Department, who will be furnished with the necessary funds upon the requisition by the Secretary of the Interior Department, in this way the Treasury Department will simply pay out lump sums, and the Secretary of the Interior will be the party responsible for the proper conveyance of the property in each instance to the government, in this way, too, the question of whether any money can be paid for a part of the property before the whole has been condemned will not have to be settled by the Treasury Department. By paying lump sums, as required by the Secretary of the Interior, the Treasury Department will not be responsible for the individual disbursements, but will honor the requisitions of the Secretary of the Interior as long as there is anything remaining of the appropriation of \$550,000. The responsibility of exceeding the appropriation, if it is exceeded, will then rest upon the commission having charge of the on the commission having charge of the

UPSETTING A WILL

Because the Testator Was Not Sane When He Executed It. Margaret Keefe, formerly Malone, has filed a bill in equity against her brother, Edmund Malone, executor of the estate of John Malone, to set saids the will of the latter and declare the same invalid. The complainant states that her father, John Malone, died May 31, 1871, aged 78 years. At the time of the execution of the will it is charged that the testator, by reason of his liluess and the failure of his mental qualities, was wholly incompatent to make a will and was unable to sign the same except by his mark. That while he lay sick, in his son's house, it is avorred, that under the influence and duress of his son the will was made, which gave the entire estate to the son and virtually disinherited the two daughters, leaving them only \$5 each. The first person called upon to write the will refused for the reason that he regarded the testator as incompetent to perform such an act. The priest who was called upon to administer the last rites of the Catholic Church to Mr. Malone was compelled to suspend the acme from time to time so as to administer the rites in the sick man's lucid intervals, It is further stated that one of the persons asked to complainant states that her father, John sick man's lucid intervals. It is further stated that one of the persons asked to witness the execution of the will refused to do so, rlleging that the whole thing was a fraud. At the time of John Malone's death it is claimed by Mrs. Keefe that he was indebted to her, and she subsequently obtained a judgment for 51,620, which the executor has refused to pay and remains unsatisfied. She asks that the will be set aside and the estate sold to satisfy the judgment.

BUREAU OF ANIMAL INDUSTRY. How the Appropriations Can Be Disbursed.

The first comptroller has decided that the commissioner of agriculture cannot ex-pend any fraction of the \$100,000 appropriated for the present year to carry out the provisions of the act establishing the bureau of animal industry for the purchase of cattle not known to be diseased, but which have been simply contiguous to cattle diseased with pleuro pueumonta. He can only purchase and destroy diseased animals when in his judgment it may be essential to prevent the spread of pleuro pneumonia from one state to another. He has also decided that the commissioner cannot out of said appropriation pay the difference between the estimated value of cattle and their value for beef, when they have been alaughtered for beef, because they were suspected of being affected with pleuro pneumonia. of cattle not known to be diseased, but

An Important Measure. It is said that M. Souville, of this city, a hysician and countryman of M. Pasteur, has discovered a new method for preventing epidemics. It makes a quarantine ing epidemics. It makes a quarantine unnecessary at New Orleans, Ponsacola, Key West, and other ports of the United States. Some of the most noted scientists have indorsed his method. It has also been said that the President may appoint M. Souville to be a member of the proposed commission for the investigations of the epidemics of South America. A bill, H. R. 9614, empowers the commissioner of the District of Columbia to employ the services of M. Souville, and authorizes the using of his method of treating epidemics whenever they shall deem it expedients of to do. Epidemics are great enemies to good health and long life; hence all true preventives should be secured at any cost.

To use St. Jacobs Oil argues wisdom, as it is the only remedy which conquers pain.

Roy Ridge Regutta-On the Chesapeake Bay Ridge Regatta—On the Chesapeake.

The Bay Ridge and Annapolis railroad having just been completed, the Baltimore and Ohlo management take pleasure in announcing that during the celebrated regata to be held at that point July 15, 16, and 17 they will run a special train from this city on each day of the races, leaving B. & O. station at 250 p. m., arriving at Bay Ridge at 4,20 p. m., without change; returning, the special train will leave at 9:15 p. m. each evening, arriving in Washington at 10:39 p. m. The low rate of \$1 has been made for this regatta, and it, together with the wonderful attractions, will us doubt be the means of carrying thousands from this city. Remember the dates, Thursday, Friday, and Saturday, July 15, 16, and 17. For further information see display advertisement in another column.

The recily was: "That until the fact was generally known it might be destrimental, but that the public could and would be trained to make purchases on Priday Instead." With that object in view the Painis Royal proprietor has decided on quoting special prices for Friday, and thus attract those who, with but little sentiment in their nature, are not adverse to saving money if the opportunity is offered,

RAILWAY NOTES.

The Iowa roads have ended a lively freight rate war by restoring live stock rates to \$70 a ear to Chicago. The cut rates were \$20 and \$25.

Mr. Couger, from the committee on commerce, reported to the Senate a bill to authorize the construction of bridges across the Tennessee and Comberland rivers by the Onlo Valley Railroad Company.

Gen. Groner while in New York told how close Virginia has been brought to New York told how prailroad connection. He left Norfolk Friday high, sarviving at New York Saturday morning, expected to do a large day's business and start back at night, and be home for church on Eunday.

The Philadelphia Press says: The importance of the Pennsvivanta Schnylkill Valley railroad as a competitor for the anthracite coal carrying indie is not generally appreciated. The road will be completed by October, and will tap every region in which anthracite coal is produced, and will divide the tomase with the Resulting and Lehigh Valley, and even the New York companies, in a way which will revolutionize percentages and make an entirely new coal combination necessary next year.

EXTENDING THE STREETS.

How It is Proposed to Widen and Lengthen Them. The commissioners are authorized to vacate all streets or alleys superseded in whole or in part by the streets and avenues to be extended or widened. The bill requires careful maps to be made showing the quantity and value of each parcel of private property to be taken, with the names of owners, and that an appraisement of the land so condemned by agreement within 30 days they shall make application to the District supreme court, which court shall without delay ascertain and assess the value of the land, but in estimating the v mittee.

The Government Does Not Accept Gifts. In the Senate yesterday Mr. Logan asked leave to call up a joint resolution authoring ing the Secretary of War to accept a dee and conveyance of a certain tract of land, known as the Highwood, in Lake county,

known as the Highwood, in Lake county, Ill., lying on Lake Michigan, twenty-five miles north of Chicago, containing 508 acres, for military purposes.

The report of the military board (Gen. Sheridan, Gen. Terry, and Capt. Lee), favoring the proposal, was read.

Mr. Beck objected to accepting land for military purposes while the government was constantly disposing of its forts and military reservations.

was constantly disposing of its forts and military reservations.

Mr. Logan explained the proposition, stating that there were no conditions attached to the gift; that this beautiful tract of land had been purchased by the Commercial Club of Chicago for \$300,000, and had been tendered to the government for such military use as it might deer proper.

Mr. Beck. I still object, for the reason that the United States does not need to accept gifts from anybody, unless there be some special reason for it.

Mr. Logan. Then I give notice that I will, at the proper time, ask the Senate to take up the joint resolution.

Secretary Manning's Condition. The latest information from Albany says that Secretary Manning has surprised his friends by his vigor and keen interest in public affairs. He recently remarked to a friend that he felt pretty well, and aside from a slowness of movement and slight uncertainty in walking, he seems nearly uncertainty in walking, he seems nearly to have recovered from his illness. He is in good spirits and meets many of his old associates daily at the directors room in the Commercial Bank, of which he was president before coming to this city, or at his house on Washington avenue. If he experiences no relapse there is every reason to believe that by next October he will be again back in the Treasury Department. He refrains from any reference to the matter, but it is believed that he prefers the life in Albany to that in this city.

Recoinage of Minor Coin.

Senator Chace submitted a proposed amendment to the sundry civil appropriation bill, authorizing the Secretary of the Treasury to transfer to the United States mint at Philadelphia for cleaning and re-issae any minor coins now in or which may be hereafter received at the subtreasury be hereafter received at the subtreasury offices in excess of the requirements for the current business of such office. Five thousand dollars is appropriated for the expenses of the transfer and relssue. It also authorizes the Secretary of the Treasury to recoin any and all the uncurrent minor coin now in the treasury, and \$4,000 is appropriated to reimburse the treasury for the loss on such coinage.

Charge Against Sergeant-at-Arms Canaday. The Veterans' Rights Union is not enter aining very good feeling for Sergeant-at-Arms William P. Canaday, of the Senate. That functionary has caused great offense

by his summary removal of ex-Union sol-diers and filling the vacancies with those who fought on the other side. They also claim that Mr. Canaday has made promises of correcting things, but failed to do so. In instances where he promised to meet the union half way, when the time came for their fulfillment of the agreement, they complain that Mr. Canaday went back on his word. The committee has become tirely of word. The committee has become thred of Mr. Canaday's methods, and, in a quiet way, they have been gathering together, from time to time, points about his management of his office, which they say they will produce should it be found necessary to do so. Dismissed for Discreditable Conduct.

Acting Secretary Fairchild yesterday summarily dismissed the chief of a division and two clerks in his office for discreditawhe conduct in connection with examina-tions for promotion. It seems that the chief of division had been instructed to prepare examination papers for promotions in his office, and that after doing so he surreptitiously furnished copies of the questions to two of the clerks under him. questions to two of the clerks under him. This fact was brought to the attention of the head of the office, who made inquiry of the accused parties, and upon their denial of the truth of the charges, reported them to the acting secretary as persons unworthy to hold position under the government. A high official of the Treasury Department states that he is convinced that this practice has been long in vogue, and that the authorities are determined to put a stop to it as far as possible. to put a stop to it as far as possible.

Unexpected Strength in Stocks-Hopeful Feeling on Wall Street. NEW YORK, July 15 .- The strength displayed by the market to-day was unexplayed by the market to-day was unexpected, and was very confusing to many operators, but the present bear party is always ready to run at the first alarm. Later in the day the news was received that the meeting of granger presidents in Chicago has appointed a committee to formulate plans for making a temporary pool, and peace in that region was regarded as almost certain, and in the last hour prices moved up sharply again, and closed at the best of the day.

The course of the market to-day has brought out a much more hopeful feeling on the street, principally on the good claracter of the buying noticed. The rise continued till moon, when there was a fractional reaction, after which there was a steady market until toward the close, when the upward movement was resumed, and the market closed strong at the best figures of the day.
